

Prevent Copper Toxicity

Helps to lock up excess copper for sensitive breeds

Features & Benefits:

Contains molybdenum, iron and sulphur – copper antagonists	Helps block copper absorption.
Contains a unique blend of natural herbs	Aids general health and cleanses the liver of toxins.
Contains Yeast-Ex, a rumen specific live yeast	Encourages better feed conversion by improved rumen activity and performance.
Cobalt and high vitamin B12	Helps combat 'Pine' and improve growth with the B12 maximising energy utilisation.
Contains unique DBG ingredient TFI & Devon Bank	Herbs and extracts give a natural nutritional benefit, maximising absorption and supporting the immune system.
High selenium and vitamin E	Helps support a healthy immune system.
High levels of zinc, manganese and iodine	Improved bio-availability of trace elements for better growth and development.
Contains rumen by-pass vitamin B complex	Delivers B vitamins to where they are needed most, including vitamin B12 to maximise energy production.
High level of calcium and seaweed meal	Helps promote bone structure, frame and growth.

Analysis per kg:

Calcium	9.70 %
Phosphorus	3.10 %
Magnesium	3.80 %
Sodium	9.60 %
Iodine	500.00 mg
Cobalt	95.00 mg
Manganese	3,000.00 mg
Zinc	6,000.00 mg
Selenium	25.00 mg
Vit A	230,000.00 iu
Vit D3	50,000.00 iu
Vit E	1,100.00 iu
Vit B12	5,000.00 mcg

Suitability:

Suitable for sheep who may be at risk from copper toxicity (North Ronaldsay, rare breeds, Texels and other continentals).

Feed Rate:

1 Tub per 25 ewes for 4 weeks (approx intake of 18g/hd/day)

Feed Advice:

Ideal for Copper sensitive breeds such as North Ronaldsay and Texels all year round.

Use when free access mineral supplementation is required.

Unit Size(s):

12.5 kg
